Introduction

The Province of British Columbia has declared its commitment to access to education for all students with accessibility challenges. Through the development of policy, procedures and the implementation of programs, the Ministry of Post-Secondary Education and Future Skills (PFSF) supports student needs at post-secondary education institutions through the development and delivery of programs and services of the Accessibility Supports Framework (ASF).

Programs and services for students with disabilities have grown and improved over the past decades. The objective of the PFSF ASF is to ensure that students with accessibility challenges are appropriately represented in the post-secondary population, receive barrier free access to education and acquire the skills and training necessary to transition to the labour market.

Beginning in Program Year 2022/23 eligibility for programs under the ASF will include students with a verified Permanent Disability (PD) and students with a verified Persistent or Prolonged Disability (PPD).

PD is defined as:

“any impairment, including a physical, mental, intellectual, cognitive, learning, communication or sensory impairment - or a functional limitation - that restricts the ability of a person to perform the daily activities necessary to pursue studies at a post-secondary school level or to participate in the labour force and that is expected to remain with the person for the person’s expected life.”

PPD is defined as:

“any impairment, including a physical, mental, intellectual, cognitive, learning, communication or sensory impairment - or a functional limitation - that restricts the ability of a person to perform the daily activities necessary to pursue studies at a post-secondary school level or to participate in the labour force and has lasted, or is expected to last, for a period of at least 12 months but is not expected to remain with the person for the person’s expected life.”

The Accessibility Programs and Services Resource Directory has been developed in consultation with the Accessibility Services Articulation Committee and is updated on an annual basis. The document is intended to provide information on programs available through the ASF and

Accessibility Support Service contacts for potential students, their counselors, families, and referral agencies.

The Directory is organized alphabetically by institution, with separate listings of services and programs. The Accessibility Services or Resource Centre is the contact area at post-secondary institutions for students identifying as having a disability and seeking Accessibility Support Services. The Accessibility office provides accessible learning, environmental services and supports to students with disabilities through liaison with faculty and other campus offices in a manner that is supportive of the students' educational needs.

The office also collaborates with PSFS and external service providers as needed to support students with disabilities. All services and accommodations are assigned based on assessment information provided by medical assessors and the student outlining the nature and extent of their disability and the functional impact(s) they may experience in an educational environment. Students are advised to access Accessibility Support Services at their respective institution Accessibility Centre two to four months before starting classes to allow for accommodation planning and preparation.

Public Post-Secondary Accessibility Supports Services

The following is a general process for the provision of services and supports. More detailed information can be obtained by contacting the Accessibility Office at each institution.

Introductory Meeting

- To acquire information relevant to assessing educational access needs
- Opportunity for the student and accessibility services staff to build a relationship
- Accessibility Services staff can discuss procedures with students
- Opportunity for the student to articulate their needs
- Discuss accessibility as it relates to educational and physical access
- Discuss and acquire documentation (Colleges and Universities have documentation requirement guidelines)
- Review historical information
- Begin problem solving and planning for supports and services
- Make referrals as needed
- Assistance in the acquisition of financial assistance

- Acquire written consents as needed
- Determine appropriate accommodations: decisions are based on documentation, student reported need, historical information, essential requirements of the course or program, and Institutional Accommodation Policy
- The appropriate level of accommodation is provided to ensure any barriers to education are reduced as much as possible.

Environmental Accommodations

- On campus technological supports
- Room changes
- Ergonomic seating
- Accessible tables and chairs
- Braille/Tactile signage
- Parking
- Technology and equipment support
- Room acoustics
- Make the basic environment comfortable and free of discrimination
- Accessibility & Awareness days
- Provide information on discrimination, awareness, referral

Learning Accommodations

- Assistance with college entry
- Priority/early registrations
- Accommodated placements testing
- Funding support: external and internal funding sources
- Accessible education resource material provision
- Tutoring and academic counseling: internal and external resources
- Communication access services: Interpreting, Typewell, Captioning
- Transitioning planning/supports: Accessibility services staff are responsible for supporting students with entrance and exit transitions. Their role includes liaison with various educational institutions and external agencies (e.g. career agencies)
- Course substitutions

- Reduced course load
- Withdrawals
- Standing deferrals
- Practicum and field placements
- Note taker
- Priority seating
- Recorded Lectures
- Scribe
- Interpreter/Captioner
- Attendant services
- Adaptive furniture
- Educational accommodations (computer, spell check, calculator)
- Extra time
- Oral
- Reader
- Scribe
- Technology aides
- Separate Space
- Equation / Formula sheet
- One exam per day
- Split exam

Accessibility Support Programs

Financial assistance and assistive equipment/services programs have been established to support students requiring accessibility-related accommodations. This section summarizes these programs. These programs are available to students who have verified their disability as either a PD or PPD with StudentAid BC. For more information, please refer to: [Ministry of Post-Secondary and Future Skills](#).

Academic Communication Equity (ACE) is funded by PSFS and housed at the British Columbia Institute of Technology. The program's mandate is to promote public post-secondary education that is accessible for students who experience communication challenges (ex: Deaf, Hard of Hearing, Deaf-Blind etc.) attending or planning to attend post-secondary in British Columbia. Supports are provided to accessibility support staff, administrators, staff, and service providers working in post-secondary institutions across BC. The program also offers resources for students who want to explore service options in post-secondary. ACE offers:

- Consultation related to accommodation planning
- Resources on hearing loss and communication access
- Provincial Guidelines and Pay Scales for interpreting and transcribing
- Job descriptions for service providers
- Services such as the Post-Secondary Interpreting Screen and Employment Registry
- Workshops on legal access, accommodation planning, managing human resource issues, skill building for interpreters and transcribers, and strategies that promote classroom access.

ATBC Program (Assistive Technology BC)

ATBC recognizes that disability reflects diverse characteristics and experiences integral to society. To that end, ATBC collaborates with persons with disabilities and members of the learning and working environments in which they interact, to create usable, equitable, inclusive and sustainable environments through the use of assistive technology.

Technology resources include:

- Technology assessment,
- Consultation
- Provision of assistive technology
- Training and tip sheets on the use of assistive technology
- Repair and trouble-shooting support, and evaluation of new technologies.

ATBC assists with and delivers the following:

CSG-DSE

ATBC provides assistive technology assessment services to students and institutions, and is responsible for acquisition, distribution and support of assistive technology acquired under the CSG-DSE.

Program for Institutional Loans of Adaptive Technology (PILAT)

The PILAT program is designed to support public post-secondary institutions in meeting their duty to accommodate students with disabilities through the provision of supplementary assistive technology resources. The program supplements existing institutional resources as extraordinary

issues arise through the provision of assistive technology support, training on the use of assistive technology to institutional staff, and bulk pricing for institutional purchases.

Public Post-Secondary Loan Service (PPL)

The PPL program is designed to provide for the loan of assistive technology to students with disabilities in post-secondary who are not able to access other existing support programs (CSG-DSE or APSD).

Center for Accessible Post-Secondary Education Resources (CAPER-BC)

Address: Langara College
100 West 49th Avenue
Vancouver, BC
Canada, V5Y 2Z6

Fax: 604 – 323-5544

General e-mail: caperbc@langara.bc.ca

CAPER is a provincial agency, located at Langara College and funded by the PSFS and located at Langara College. CAPER provides supports to post-secondary students with accessibility issues related to resource material formatting. CAPER provides alternate format materials for students including:

- Processing requests for alternate formats;
- Loaning alternate formats from CAPER and partner collections through resource acquisition and sharing;
- Researching and coordinating new technology and product evaluations and implementing efficiency tools,
- Providing information and advisory services for student assignments, research, teaching and learning through the use of alternate formats and assistive technology;
- Training students and staff in the use of alternate formats; and
- Producing accessible formats.

- The most common request is for course text material to be converted into a different format for access purposes.
